

Heavy Duty coarse drive threads for maximum holding power. Heat treated and hardened for strength and reliability.

Exclusive Power Point delivers real self drilling capability in all woods and even the new generation of wood composites.

Duracoat Finish lasts years longer than galvanizing in any application. Superior impact resistance and will not peel, strip or chip like ceramic coatings.

#2 & #3 Phillips or square drives available.

Longer Shanks for a tighter fit of joining materials. Made from larger wire for greater shear strength.

Flathead With Nibs head for a flush, professional countersink in all woods that locks the screw in tight.

When You Compare The Quality Shows

ALL WEATHER GENERAL OUTDOOR

For any outdoor application where rust, corrosion or staining is not wanted. Fencing, decks, walkways or any exposed construction. Will not corrode in redwoods. Great for new generation wood composites.

DOCKS PIERS PILINGS

Engineered expressly for marine construction where high shear loads contribute to normal fastener failure. FASTAP Plus screws provide extra strength and reliability with maximum serviceability.

TREATED WOODS

Treated woods will attack and corrode galvanized nails and screws. FASTAP Plus with Duracoat far outlast galvanized or ceramic coated fasteners in treated wood applications.

MARINE

Our Duracoat coating stands up to salt exposure far longer than any galvanized fastener. Ideal for construction and maintenance in harsh marine environments. Will not electrolytically react to unlike metals.

CHEMICALS OILS SOLVENTS

FASTAP Plus screws with Duracoat will not corrode in applications where chemicals, airborne pollutants, solvents, oils or fertilizers will be used in large concentrations.

For outdoor jobs you want to last, from decks, stairs or general maintenance to big jobs like docks or landscape timbers, FASTAP Plus Duracoat screws with the Power Point will make any project assembly incredibly easy and will save you time.

Available In 12 Popular Sizes For Most Any Outdoor Project: 1¹/₄", 1³/₈", 1³/₄", 2", 2¹/₄", 2¹/₂", 3", 3¹/₄", 3³/₄", 4¹/₂", 5", 6" in Phillips or square drive.
